

FROM 40 PRODUCTS TO ONE PLATFORM:

ZERO LEGACY DRAG IN PRODUCTION SAAS TRANSFORMATION

Leading Global LegalTech Provider | Cloud & SaaS Transformation

INFLECTION POINT

- 40+ siloed point solutions — fragmented UX, impossible to scale | High maintenance costs across every product
- Monolithic architecture blocking releases | Deployments were to be measured in weeks
- Limited integration across stacks | Zero unified platform capability
- Operational complexity compounding | 60% overhead on keeping lights on

EXIQO ENGINEERED FIX

OptimaAI Platform: Custom multi-tenant SaaS platform — microservices via DDD, independently deployable & resilient | 99.99% system availability achieved

Context Engineering: Phased data migration, multi-tenant isolation, automated sync — zero data residency risk | 80% faster client onboarding

AI SDLC Playbook: Automated CI/CD, QA automation, zero-trust security, GDPR compliance — RPO 5 min, RTO 15 min | 90% improvement in feature delivery

AI-EV Program: Builder-to-Champion pathway → engineers leading microservices delivery, multi-agent orchestration & cloud-native ops at scale | Dual sign-off achieved, enterprise delivery sustained

65%

Lower Maintenance Costs — 50% infra savings, 60% operational overhead eliminated

70%

faster incident resolution, 99.999% availability
