

MEDICAL CODING WITHOUT HUMAN TOUCH

8.5M CHARTS. ZERO MANUAL CODING. FULL COMPLIANCE
Leading Healthcare Provider | AI-Powered Medical Coding

INFLECTION POINT

- Manual coding - slow & error-prone | 70K records/month handled manually
- Inaccurate ICD-10 mapping | 8.5M+ charts coded by hand annually
- Billing bottlenecks delaying AR | 15 FTEs on repetitive tasks
- No compliance automation | 0 HIPAA checks on unstructured data

EXIQO ENGINEERED FIX

- **OptimaAI Platform:** ICD, CPT, HCPCS codes assigned in real time - HIPAA compliance built in, PHI protected end-to-end | 98% automation accuracy
- **Context Engineering:** OCR + medical ontologies extract & classify across all file types | 8.5M+ charts processed with consistent precision
- **AI SDLC Playbook:** AI-assisted ICD mapping + automated CPT billing + compliance checks | 85% faster turnaround
- **AI-EV Program:** Aspirant-to-Beginner pathway → engineers ramped on AI-assisted coding automation & compliance workflows | Compressed onboarding, production-ready from day one

98%

Automation Accuracy - coding errors eliminated, revenue cycle protected

15 FTEs

Saved Monthly - team fully redirected to patient care
